### **SPENDING TAXPAYERS' MONEY WISELY, CUTTING RED TAPE**

We are proud of our reputation for providing value for money for local taxpayers. It has been incredibly challenging to provide services as grant income from central government has reduced. Lincolnshire's Council Tax is the third lowest in the country and we are committed to keeping it that way.

We continue to campaign for a fairer funding system from government for rural areas.

### **BETTER HEALTH AND ADULT SOCIAL CARE SERVICES**

Our 'Neighbourhood Teams' combine social services and NHS nurses to provide joined up care for our ageing population. Conservatives will continue to support people in the community enabling them to remain independent and at home as long as possible.

We will continue to prioritise the safeguarding of children and adults and campaign to reinstate a Lincolnshire Ambulance Service.

### **PROTECTING COMMUNITIES AND THE ENVIRONMENT**

Conservatives have invested £17m in flood defences across Lincolnshire and at 50% have one of the highest recycling rates in the country. We know we have some of the most beautiful countryside in Britain. We continue to be committed to protecting the countryside.

We want a planning system that is fair to developers, communities and local people. The right development in the right place.

# **Together we can build a bright future.**

## **RICHARD BUTROID**

**Your Local Choice for  
Gainsborough Rural South**

# GAINSBOROUGH RURAL SOUTH NEEDS RICHARD BUTROID ON OUR TEAM

**The villages and communities of the Gainsborough Rural South division have the opportunity to add a dedicated campaigner to our local Conservative team.**

Richard was born and has lived in the local area for most of his life. He is aware of the challenges that rural living brings. Richard has a proven track record of supporting his community as a Parish Councillor in Sturton-by-Stow. He has been an active member in village life. Richard has taken a practical approach to building, fixing, maintaining and fundraising for the village and is looking forward to working and helping the wider community.

Sir Edward Leigh MP, who represents the communities of the Gainsborough Rural South division in Parliament, is backing Richard. He said:

"As we leave the European Union it is so important that we have a strong, local team of councillors on Lincolnshire County Council who will work with me, the Prime Minister and

the Government, to get the best deal for Lincolnshire.

"Conservatives offer the strong and committed team that we need to get things done. By working together we achieve more than when we are not working in common cause. Richard Butroid is the dedicated local man who I know will be a strong voice for local communities."

Despite real challenges in terms of funding & demand, your Conservative-led County Council has delivered good services whilst spending public money wisely. We are continually finding new ways of working, like emergency service collaboration, volunteer-led libraries, Call-Connect bus services and much more. Please back Richard Butroid, only he can be part of our strong and cohesive team.

**Together we can build a bright future.**

## ACTION FOR YOU!

### KEEPING YOUR COUNCIL TAX BILL LOW

As local government does its bit to right the nation's books, following the deficit left by Labour, Lincolnshire's Council Tax still remains the third lowest in the country.

### MORE MONEY FOR ROAD MAINTENANCE

Conservatives have increased to £37 million the road maintenance budget this year, helping keep drivers and pedestrians safe. By working together we can sort out issues like potholes.

### ENERGY-FROM-WASTE FACILITY BUILT

150,000 tons of land-fill waste is now processed each year to cleanly produce cheaper energy for local people.

### 95% ROLLOUT OF SUPER-FAST BROADBAND

Supporting small local businesses, helping to build our local economy and keeping rural areas connected is important. There is still more to do, but real progress has been made.
